Future Land Use

Future Land Use

North Walton

- Estate Residential
- Rural Low Density
- Rural Residential
- Rural Village
- Urban Residential
- Industrial
- Extractive Uses
- BC/NPA Low Density Residential
- BC/NPA Mixed Use Residential
- BC/NPA Rural Town Center

South Walton

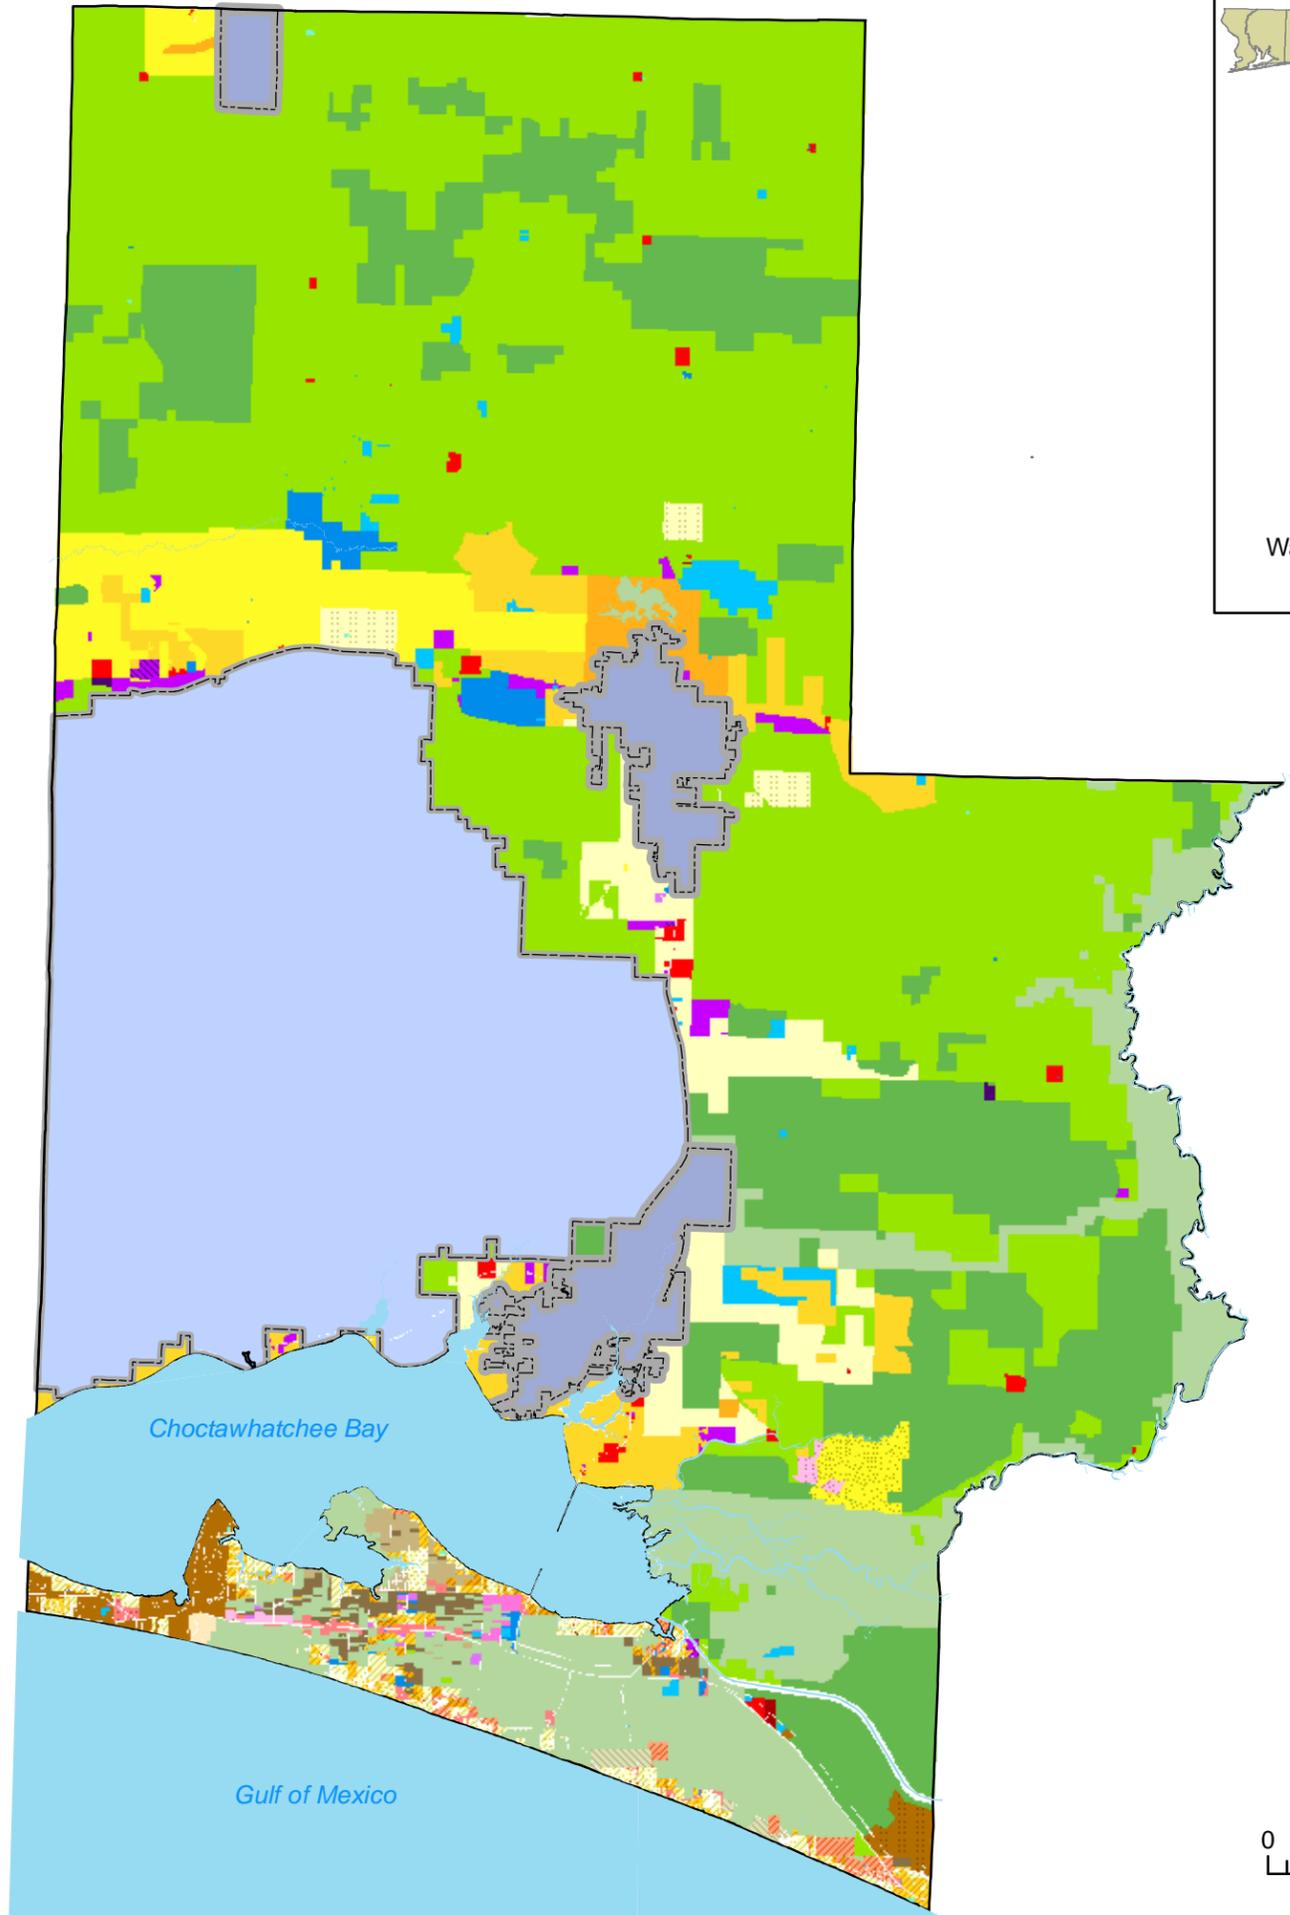

- CR 1/10 (1 unit per 10 acres)
- CR 1/2.5 (1 unit per 2.5 acres)
- CR 2 (2 units per acre)
- Residential Preservation
- Neighborhood Infill
- Small Neighborhood
- Traditional NBHD Development
- Coastal Center
- Coastal Village One
- Village Mixed Use
- Coastal Center Mixed Use
- Town Center One
- Town Center Two
- Court Ordered Overlay

North and South Walton

- General Agriculture
- Large Scale Agriculture
- Conservation
- General Commercial
- Neighborhood Commercial
- Business Park
- Parks and Recreation
- Public Facilities
- Institutional
- Light Industrial
- Heavy Industrial
- Low Density Residential
- DRI Mixed Use

Other Areas

- Eglin AFB
- Municipal

Source Data:
Water (NHD Area Features) last updated 3/25/2014 from USGS website.
Walton County Outline last updated 4/3/2014 from FGDL website.
Municipalities last updated for Freeport Ordinance 2014-01 adopted 1/6/2014
Eglin AFB published 1/16/2009
Future Land Use last updated 6/30/2014

Sinkhole Locations and Types

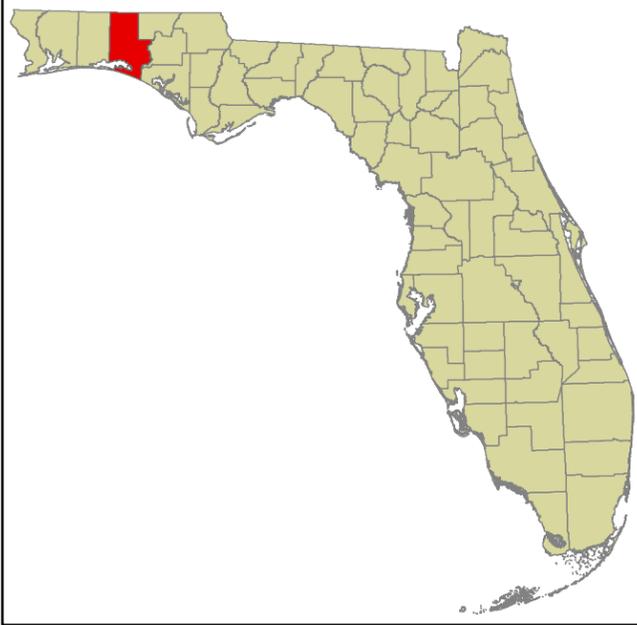

X Subsidence Incident Reports March 2014

Sinkhole Types

Consists mainly of cohesive clayey sediments of low permeability. Sinkholes are most numerous, of varying size and develop abruptly. Cover-collapse sinkholes dominate.

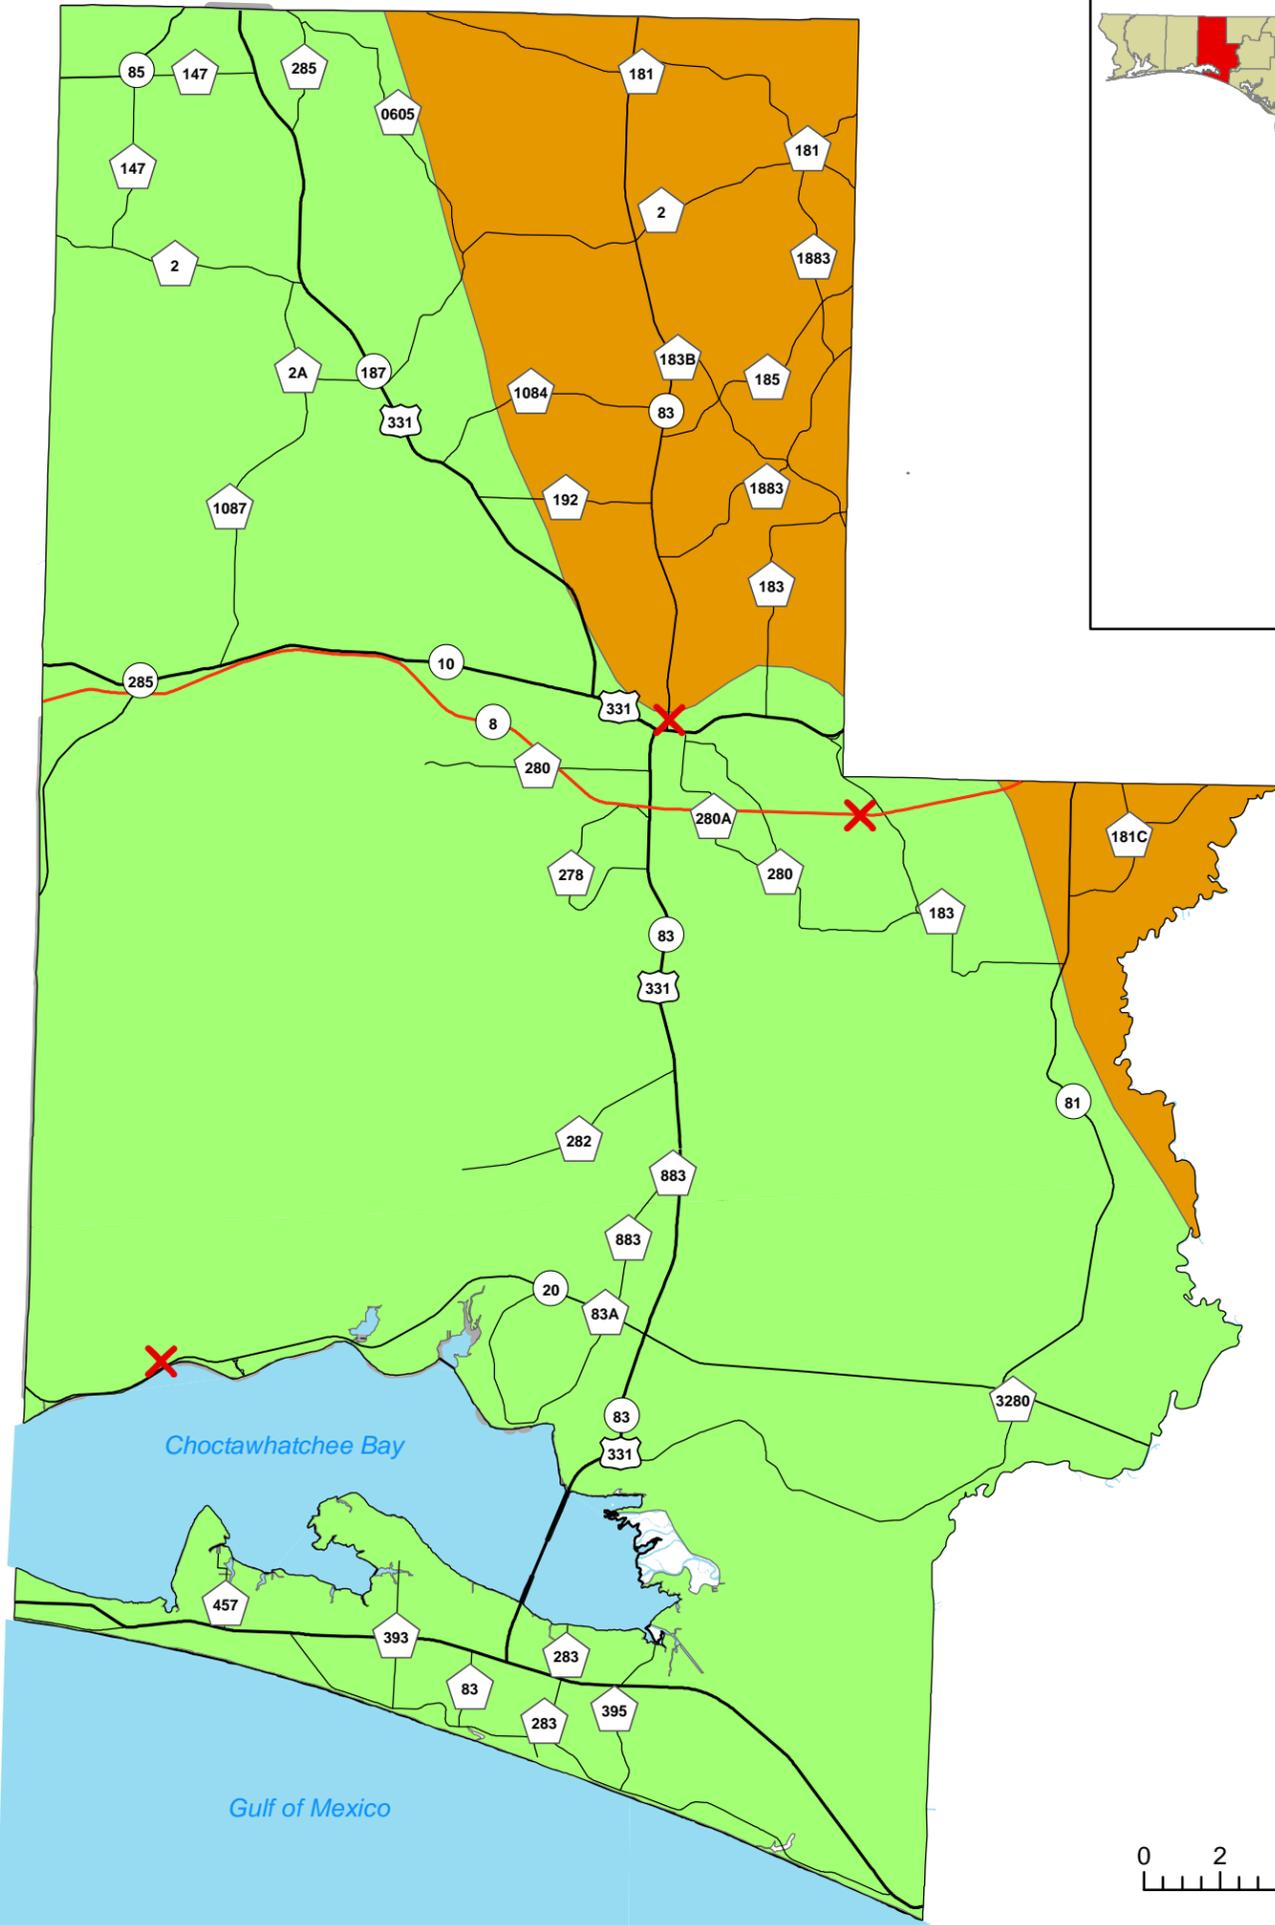

Consists of cohesive sediments interlayered with discontinuous carbonate beds. Sinkholes are very few, but several large diameter, deep sinkholes occur. Cover-collapse sinkholes dominate.
