## Walton County Planning and Flood Review Checklist for Building Permit

**ALL APPLICATIONS SHALL BE SUBMITTED USING THE ONLINE PORTAL**

<https://www2.citizenserve.com/waltonplanning>

**PLEASE BE ADVISED THAT APPROVAL OF THE APPLICATION DOES NOT CONSTITUTE  
APPROVAL BY THE WALTON COUNTY BUILDING DEPARTMENT.**

**A BUILDING PERMIT IS ALSO REQUIRED.**

***The following items must be submitted in order to obtain Planning approval:***

Payment must be made at the time of submittal. The following forms of payment are accepted:

Checks – made payable to Walton County

Credit Card w/processing fee(s)

**Cash not accepted**

- Proof of Ownership of Property
- Architectural Review Board Letter (if applicable)
- Survey with all improvements (see minimum finished floor elevation requirements)
- State/Federal Permits (if applicable)
- Planning Review Fee (\$100.00)
- Clearing and/or Site Preparation Fee (\$25.00)
- Stormwater Design In-House Review Fee (\$150.00) (if applicable) Initial & 1<sup>st</sup> Resubmittal
- Stormwater Design Outsourced Review Fee (\$250.00) (if applicable) Initial & Resubmittal
- Flood Review Fee (\$45.00) – **see 3rd page of checklist for additional submittal requirements**
- Identify if property is being developed for short-term rental.**
- Proportionate Fair Share PFSC** (DD-2015-03 “compliance requires the payment of the PFS prior to Development Order inspector approving the project” for commercial projects. “In cases of platted property the PFSC payment must be made prior to recording of the plat”.)
- Site Plan** – The site plan must be an architectural site plan based on a certified survey (with measurements called out) **no larger than 11x17:**
  - Dimensions of property and proposed or existing structure with any setback encroachments dimensioned
  - Street Name
  - Setbacks
  - Easements
  - Parking Spaces (on-site spaces at a minimum of 9’ x 20’ each)

- Stormwater/Drainage/Grading/Impervious Surface Ratio (if applicable)
- Landscape/Preservation Buffers (if applicable)
- Scenic Corridor Buffers (if applicable)
- (CPZ) Coastal Protection Zone (if applicable)
- CPZ Seaward/Landward of CCCL (if applicable)
- (CCCL) Coastal Control Construction Line (if applicable)
- Shoreline Protection/Environmental Buffers (MHWL/OHWL is required to be shown) (if applicable)
- (CDLPZ) Coastal Dune Lake Protection Zone (if applicable)
  - Identify Preservation areas (minimum 50% of gross area within CDLPZ)
  - Include itemized Impervious Surface Ratio (ISR). Maximum of 40% of gross area within CDLPZ
- Flood Zone delineation (if applicable)
- FDEP/ACOE Wetlands delineation (if applicable)
- Floor Plan
- 

**Building Elevations** – The site plan must be an architectural site plan based on a certified survey (with measurements called out) **no larger than 11x17:**

- Finished Floor Elevation – measurements must be made from natural grade
- Measurements of all Roof overhangs/eaves, Cantilevered portions of the decking and balconies
- Height of structure and all exterior stairs/steps

**Building Floor Plan** – The site plan must be an architectural site plan based on a certified survey (with measurements called out) **no larger than 11x17:**

- The floor plan must accurately describe/label all habitable spaces
- Finished Floor Elevation – Measurements must be made from natural grade

**Foundation Plan** - required no larger than 11x17 (see Stormwater Compliance).

**Roof Plan**- The roof plan is required to be no larger than 11X17 and show the overhang width. If the roof overhang is encroaching into the setback include a dimension of encroachment in relation to the setback.

**Minimum Finished Floor Elevation Requirement:** Applies to all county properties.

- The building minimum finished floor elevation must be **at least one foot (1')** above the average of the highest elevation of the road abutting the property.
  - A topographic survey showing road elevations and lot elevations will be required.

**Stormwater Compliance:** Per Chapter 5 of the Land Development Code, development or redevelopment of lots without a County Approved Stormwater Management Plan and south of the Choctawhatchee Bay will be required to meet the following:

- **Maximum Impervious Surface Ratio (ISR) of 40%.**
  - The site plan must include the ISR calculation. Pavers are considered impervious.
- All structures must be **piling or pier supported** to allow for infiltration of stormwater unless a stormwater management plan meeting the minimum requirements is submitted.
  - The foundation plan must reflect the type of foundation and the finished floor elevation being proposed.

- **No grading or filling of the lot shall be allowed, with the exception of what is required to construct a driveway or garage/carport.**
- **For lots that are in an identified closed basin by Public Works, all of the stormwater management requirements of Section 5.06.03 shall apply and be approved by the County Engineer or designee.**
  - A stormwater plan meeting the minimum requirements will be required.
- **For lots that are immediately adjacent to and front a Coastal Dune Lake the Stormwater Management Requirements of Section 5.06.03 shall apply as it pertains to Water Treatment and not Attenuation.**
  - A stormwater plan meeting the minimum requirements will be required.
- Per 5.07.12.B. An exemption can be made by the County Engineer to the lots Impervious Surface Ratio requirement, the piling and/or pier supported structure requirement, or the minimal grading and fill requirement above provided the applicant meets all of the Stormwater Management Requirements of Section 5.06.03 as approved by the County Engineer.

**Environmental Compliance:** If the parcel is within the Wildlife Conservation Zone, a lighting plan must be submitted to the Walton County Environmental Department for approval prior to applying for a building permit from the Walton County Building Department. Any questions regarding the submittal requirements or design guidelines should be directed to the Planning Department at 850-267-1955 or email [wildlifelighting@co.walton.fl.us](mailto:wildlifelighting@co.walton.fl.us)

**Choctawhatchee Beach Mice:** If the parcel lies south of Scenic Gulf Drive, South of U.S. 98 between Scenic Gulf Drive and County Road 30A, south of County Road 30A or south of U.S. 98 from County Road 30A to the Bay County line your project is located within areas that provide habitat to the Choctawhatchee Beach Mouse (CBM) an endangered species protected under the Endangered Species Act. Prior to initiating any clearing activities or commencement of any construction authorized under this permit, you will need to coordinate with the U.S. Fish and Wildlife Service (Kristi Yanchis 850-769-0552 ext. 252) to determine if this proposed activity will require permitting or if changes to the proposed development footprint will be necessary to provide protection to the CBM.

**Coastal Dune Lake Compliance:** If the proposed structure is located within 300 feet of a Coastal Dune Lake or Coastal Dune Lake Tributary it will be considered to be within the Coastal Dune Lake Protection Zone (CDLPZ). Within the CDLPZ the following will be required:

- Impervious Surface Ratio calculation (maximum of 40%)
- Site plan must clearly show limits of clearing and preservation (can be shown as hatching etc.)
- All preservation areas must be protected by silt fencing.
- A stormwater management plan, which includes appropriate Low Impact Development techniques, designed by an engineer MUST be included for all projects within the CDLPZ.
- Refer to Policy 1.4.1 of the Comprehensive Plan and Section 4.02.06.2 of the Land Development Code for further details.

### **Planning Inspection Information**

- The applicant may be required to provide the following to the Walton County Planning Department

prior to inspection from the Building Department:

- Foundation survey with setbacks and FFEs
- Stormwater or Grading/Drainage letter
- These items along with the completed drop off form can be delivered to the Walton County Planning Department either in person at the Planning office or via email to:  
[underconstruction@co.walton.fl.us](mailto:underconstruction@co.walton.fl.us)

### **Flood Zone Submittal Requirements – to be included with all Planning items listed above**

- Structural foundation plan with engineered flood statement. **(11x17)**.
- Construction Drawings Elevation Certificate from surveyor or engineer.
  - **Note: An Elevation Certificate will be required prior to framing inspection and a stamped and signed final elevation certificate is required before issuance of a Certificate of Occupancy.**
- When building within a “V, VE or Coastal A” flood zone, a “V” flood zone certificate is required for all proposed structure(s).

### **Flood Zone Information**

The Walton County Flood plain ordinance 2014-04 and NFIP requires that buildings be constructed by methods that will minimize flood damage. The Technical Bulletins provide guidance concerning the building performance standards of The NFIP, which are contained in Title 44 of the U.S. Code of Federal Regulations at Section 60.3. The bulletins are intended for use primarily by State and local officials responsible for interpreting and enforcing NFIP regulations and by members of the development community, such as design professionals and builders.

- **A and AE Flood Zones**
  - All storage, parking and access areas of construction below design flood elevation must be constructed with water resistant material.
  - For A, AE and Coastal A Flood Zones all enclosed areas below the design flood elevation must include hydrostatic equalization vents.
  
- **V, VE and Coastal A Flood Zones**
  - All storage, parking and access areas below the lowest horizontal structural member must be constructed with frangible construction methods in accordance with FEMA Technical Bulletin 5 *Free-of-Obstruction Requirements*, Technical Bulletin 9 *Design and Construction Guidance for Breakaway Walls* standards and Technical Bulletin 4 *Elevator Installation*. **These requirements must be accurately noted on plans.** When applicable, a non-conversion agreement will be required.

### **Flood Inspection Information**

- For structures within a flood zone, the applicant will be required to provide the following to the Walton County Planning Department prior to inspection from the Building Department:
  - Under construction Elevation Certificate
  - Finished construction Elevation Certificate
    - Must be a stamped Elevation Certificate and hand delivered to Walton County Planning Department.
- The Elevation Certificates, along with the completed drop off form, can be delivered to the Walton County Planning Department either in person at the Planning office or or via email to:  
[underconstruction@co.walton.fl.us](mailto:underconstruction@co.walton.fl.us)
